Vol. 1 No. 1

The Birth and Berth of a New Journal v
The sizes and conformations of the proteins in adsorbed layers of individual caseins on latices and in oil-in-water emulsions
D.G. Dalgleish (Guelph, Ont., Canada) 1
Adsorption of ciprofloxacin to urinary catheters and effect on subsequent bacterial adhesion and survival
G. Reid, C. Tieszer, R. Foerch and H.J. Busscher (London, Ont., Canada), A.E. Khoury and A.W. Bruce (Toronto, Ont., Canada) 9
A study on human gastric lipase and complexes with monoclonal antibodies using the monomolecular film technique
M.G. Ivanova, M. Aoubala, A. de Caro, C. Daniel, J. Hirn and R. Verger (Marseille, France) 17
Application of freezing front technique and axisymmetric drop shape analysis-profile for the determination of surface tensions of adsorbed protein layers
F.Y.H. Lin, Z. Policova, H.K. Yueh, E. Moy and A.W. Neumann (Toronto, Ont., Canada) 23
Physicochemical investigations in systems of composition biosurfactant/sodium dodecyl sulfate/water around the critical micelle concentration
S. König, K. Quitzsch, B. König, R. Hommel, D. Haferburg and H.-P. Kleber (Leipzig, Germany) 33
Cation-promoted adsorption of proteoheparan sulphate
M. Malmsten (Lund, Sweden), G. Siegel (Berlin, Germany), E. Buddecke and A. Schmidt (Munster, Germany).. 43
Stability of surfactant vesicles formed from cationic didodecyldimethylammonium bromide
Y. Kondo, M. Abe and K. Ogino (Chiba, Japan), H. Uchiyama, E.E. Tucker, J.F. Scamehorn and S.D. Christian (Norman, OK, USA) 51
Ionophorous and sequestering properties of surfactin, a biosurfactant from *Bacillus subtilis*
L. Thimon, F. Peypoux, J. Wallach and G. Michel (Villeurbanne, France) 57

Announcement 63
Guide for Authors 65

Vol. 1 No. 2

Covalent coupling of antibodies to hydrophilic core-shell particles
B.L.J.C. Konings, E.G.M. Pelssers, A.J.C.M. Verhoeven and K.M.P. Kamps (Boxtel, The Netherlands) 69
Adsorption and immunoreactivity of proteins on polystyrene and on silica. Competition with surfactants
J.W.Th. Lichtenbelt, W.J.M. Heuvelsland, M.E. Oldenzeel and R.L.J. Zsom (Arnhem, The Netherlands) 75
Dextran modified gold surfaces for surface plasmon resonance sensors: immunoreactivity of immobilized antibodies and antibody–surface interaction studies
S. Löfås, B. Johnsson, K. Tegendal and I. Rönnberg (Uppsala, Sweden) 83
Modified antibody secretions by embedding hybridoma cell lines in agarose gels
Ch. Cadic-Amadeuf, Ch. Margerin, Ch. Baquey and B. Dupuy (Bordeaux, France) 91
Adsorption of bovine serum albumin onto amphiphilic acrylic acid copolymer-stabilized polystyrene latex particles
F. Betton, A. Theretz, A. Elaissari and C. Pichot (Lyon, France) 97
Fibrinogen and albumin adsorption from human blood plasma and from buffer onto chemically functionalized silica substrates

P.W. Wojciechowski and J.L. Brash (Hamilton, Ont., Canada) 107
Effect of metallic ions on the adhesion of biofilms formed by *Pseudomonas fluorescens*
M.J. Vieira, R. Oliveira, L. Melo, M.M. Pinheiro and V. Martins (Braga, Portugal) 119
Binding sites for mannose-specific interaction between xanthan and galactomannan, and glucomannan
M. Tako (Okinawa, Japan) 125
TiO_2 thin films: new support materials compatible for transmission electron microscopy and scanning probe microscopy
F. Zenhausern (Geneva, Switzerland), M. Adrian (Dorigny, Switzerland) and P. Descouts (Geneva, Switzerland) 133

Vol. 1 No. 3

Pressure dependent arrangement of a protein in two-dimensional crystals specifically bound to a monolayer
H. Haas and H. Möhwald (Mainz, Germany) 139
Penetration of amphoteric surfactants into phospholipid monolayers spread at the air–water interface
S. Muchtar, M.Y. Levy and S. Benita (Jerusalem, Israel) and A. Baszkin (Châtenay-Malabry, France) 149
The preparation and characterisation of immunoliposomes with surface-bound placental alkaline phosphate antibody
M.J.H. Hudson and M.N. Jones (Manchester, UK) 157
Studies on the interaction of *Rhizopus arrhizus* lipase with dipalmitoylphosphatidylcholine liposomes
A.G. Marangoni (Guelph, Ont., Canada) 167
Interaction of antithrombin III in purified solution and in plasma with insoluble modified polystyrene
C. Boisson-Vidal and J. Jozefonvicz (Villetaneuse, France) and J.L. Brash (Hamilton, Ont., Canada) 177
Spin-labelling study of dextran-coated silica: effect of functionalisation
A. Touhami, H. Hommel and A.P. Legrand (Paris, France), A. Serres, D. Muller and J. Jozefonvicz (Villetaneuse, France) 189
Conformational changes in protein molecules upon adsorption on ultrafine particles
A. Kondo, S. Oku, F. Murakami and K. Higashitani (Kitakyushu, Japan) 197

Vol. 1 No. 4

Penetration of phospholipid monolayers by opioid peptides and opiate drugs (agonists and antagonists)
N. Bourhim and M.S. Elkebbaj (Casablanca, Morocco), Y. Gargouri (Sfax, Tunisia), P. Giraud, J. van Rietschoten, C. Oliver and R. Verger (Marseille, France) 203
Mechanistic study on toxicity of positively charged liposomes containing stearylamine to blood: use of carboxymethyl chitin to reduce toxicity
T. Nishiya and R.T.-T. Lam (Montreal, Que., Canada) 213
Surface rheological properties of the monolayer of synthetic lung surfactant
M. Ueno, K. Samura, K. Fukuda, N. Takeo and T. Takei (Tokyo, Japan), A. Takahashi and T. Fujiwara (Iwate, Japan) and H. Asano (Tokyo, Japan) 221
Fate of ^{14}C radiolabeled poly(DL-lactic acid) nanoparticles following oral administration to rats
C. Ropert, D. Bazile, J. Bredenbach, M. Marlard, M. Veillard and G. Spenlehauer (Antony, France) 233
Solution behaviour of hydrophilic bile salts: pathophysiological implications
J.C. Montet (Marseille, France), M. Lindheimer and N. Kamenka (Montpellier, France) and A.M. Montet (Marseille, France) 241
Investigation of the kinetics of macromolecule adsorption by means of the quartz microbalance and double-layer capacitance measurement. Application to the adsorption of bovine serum albumin onto gold electrode
F. Lacour, R. Torresi, C. Gabrielli and A. Caprani (Paris, France) 251
Properties of plasma-modified polyurethane surfaces
K. Ulubayram and N. Hasirci (Ankara, Turkey) 261

Vol. 1 No. 5

Thermodynamic studies on the interactions of histone H_1 and dodecyltrimethylammonium bromide
A.A. Moosavi-Movahedi and K.H. Nazari (Tehran, Iran) 271

Admittance measurements on protein layers adsorbed at the Pt/solution interface: effect of d.c. potential and a.c. field
H. Matsumura and J.M. Kleijn (Wageningen, The Netherlands) 277
Interfacial tension studies on surfactant systems at the aqueous/perfluorocarbon interface
D.J. Burgess and J.K. Yoon (Chicago, IL, USA) 283
Proteolytic activity in various water-in-oil microemulsions as related to the polarity of the reaction medium
V. Papadimitriou, A. Xenakis and A.E. Evangelopoulos (Athens, Greece) 295
Degradation of polyurethanes in vitro and in vivo: comparison of different models
J.R. Frautschi, J.A. Chinn and R.E. Phillips, Jr. (Austin, TX, USA), Q.H. Zhao and J.M. Anderson (Cleveland, OH, USA), R. Joshi and R.J. Levy (Ann Arbor, MI, USA) 305
Comparison of contact angle measurements by three methods
N. Milman (Chicago, IL, USA), J.K. Yoon (Pearl River, NY, USA), A.J. Hickey and D.J. Burgess (Chicago, IL, USA) 315
Biocompatibility of some materials used in dental implantology: histological study
A. Allabouch (Rabat, Morocco), J. Colat-Parros (Bordeaux, France), R. Salmon (Talence, France), S. Naim (Rabat, Morocco) and J.M. Meunier (Bordeaux, France) 323

Announcement 331

Vol. 1 No. 6

Applicability of polymer theories to the thermodynamics of proteins at the air/water interface: example of β-lactoglobulin
R. Douillard (Nantes, France) 333
A simple flow cell system to evaluate in vitro bacterial adhesion on solids
N. Vassilakos, S. Kalfas, T. Arnebrant and J. Rundegren (Malmö, Sweden) 341
Ultrathin film characterization: photoreactive polyacrylamide
R.L.W. Smithson and D.F. Evans (Minneapolis, MN, USA), J.D. Monfils and P.E. Guire (Eden Prairie, MN, USA) 349
Casein adsorption on the surfaces of oil-in-water emulsions modified by lecithin
Y. Fang and D.G. Dalgleish (Guelph, Ont., Canada) 357
Study of the adsorption of $F(ab')_2$ onto polystyrene latex beads
J.L. Ortega-Vinuesa and R. Hidalgo-Alvarez (Granada, Spain) 365
Incorporation of D-glucosamine alkyl glucopyranosides into the bilayer of small unilamellar vesicles of egg phosphatidyl choline
M.-R. Sancho, P. Boullanger and R. Létoublon (Villeurbanne, France) 373
